

## Photo Editing - Changing Picture Backgrounds

### Step One:

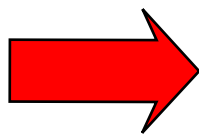

Open your chosen picture. *File > Open*

Remove the background using the 1) selection wand and 2) eraser tools.

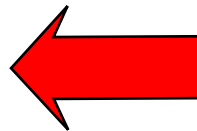

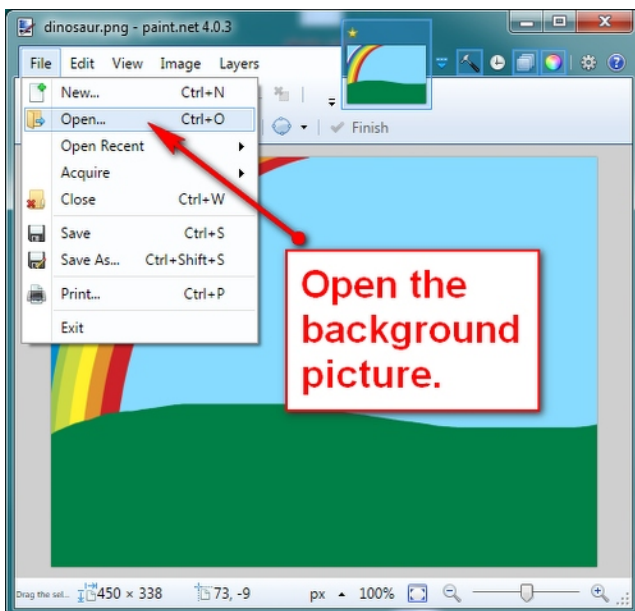

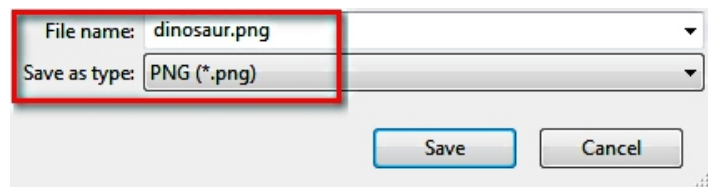

### Step Two:

*File > Save as...*

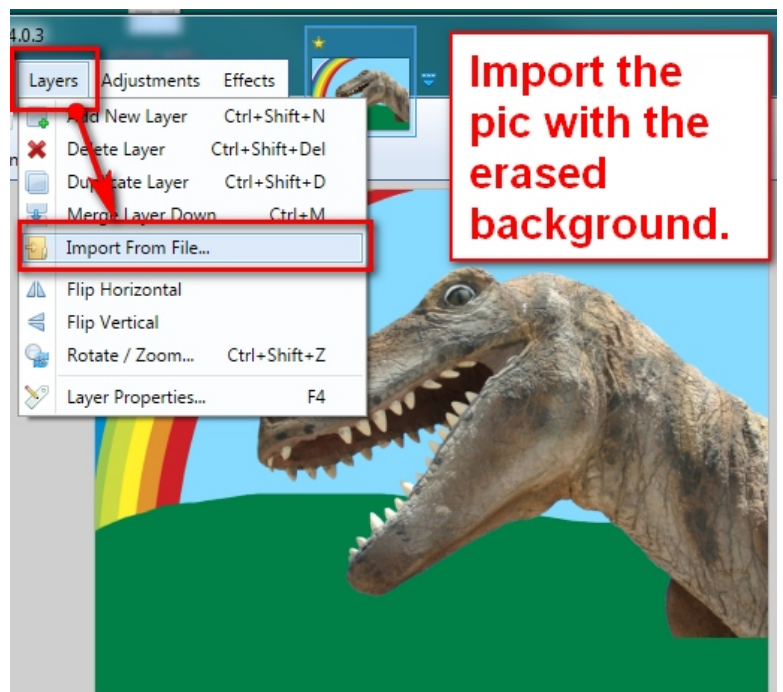

Save your erased image as a **.png** file.

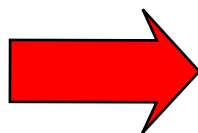

### Step Three:

Open your background picture.

*File > Open*

### Step Four:

Import your erased picture.  
*Layers > Import From File*

Save your picture when done.

*File Save as...*

Done!
