

Directions:

You and your partner will be entering the "Shark Tank" competition for 5th grade during your Idea Lab class the next 3 weeks. The "Sharks" will only choose three products/ideas from the 5th grade in which to invest their money.

You will need to complete all the steps in the packet in a timely manner by the due date so that you will be prepared to impress the "Sharks" with your great innovative product/idea during your presentation.

You and your partner will be coming up with an original product/idea that will help others, make something more efficient, or solve a problem.

Your idea must include an actual product that you can build yourself. (This can simply be a model of the design using materials that you can find at home or school)

Your product must be accompanied by a poster or Google Slide presentation with all of the stats about your product.

Your presentation date is: _____
